Professional Summary

Motivated MCA graduate with hands-on experience in Python, React, FastAPI, and full-stack web development. Strong in Data Structures, Algorithms, and problem-solving, seeking opportunities as a Software Developer, Frontend Developer, Backend Developer, or Full Stack Developer.

Technical Skills

- **Languages:** Python, Java, JavaScript,
- **Frontend:** React.js, HTML, CSS, Bootstrap
- **Backend:** Flask, Django, FastAPI, Node.js, Express.js
- **Database:** MongoDB, PostgreSQL, SQLite
- **Tools:** Git, GitHub, VS Code
- **Concepts:** DSA, OOP, DBMS

Education

Jabalpur Engineering College, Jabalpur 2024 – 2026

Master of Computer Applications (MCA), CGPA: 7.40

Govt. Holkar Science College, Indore 2021 – 2024

Bachelor of Science in Computer Science, CGPA: 6.78

Work Experience

Badkul Technology Sep 2024 – Oct 2024

React & DSA Intern

- Developed a full-featured Trip Management Application using React.js, improving client data accessibility.
- Built 12+ reusable UI components, optimizing frontend rendering efficiency and code modularity.
- Applied DSA concepts to optimize search and filtering logic, reducing processing overhead.
- Utilized Git and GitHub for daily version control, conflict resolution, and collaborative workflow management.

Oasis Infobyte Jan 2024 – Feb 2024

Web Developer Intern

- Developed 3 responsive web applications utilizing HTML, CSS, and native JavaScript.
- Improved UI/UX layouts across multiple mobile-friendly frameworks, maximizing cross-device layout rendering.
- Ensured 100% cross-browser compatibility by executing detailed debugging workflows and frontend code reviews.

BhartIntern Dec 2023 – Jan 2024

Frontend Developer Intern

- Built functional web interfaces including a personal Portfolio Website, a Netflix Clone, and a dynamic Weather Application.
- Developed fluid, accessible interfaces using Bootstrap, scaling responsiveness across modern viewport profiles.
- Integrated third-party REST APIs to inject dynamic, real-time data payloads securely into frontend components.

Personal Projects

Portfolio — *HTML, SCSS, JavaScript* - Live

Engineered a modern, responsive developer portfolio showcasing personal engineering work, technical skill sets, and professional experience with optimized performance and clean SCSS architecture.

Agri Setu — *React, Node.js, Knex.js, PostgreSQL* - GitHub

Developed a full-stack farmer-to-buyer marketplace that streamlined direct-to-consumer sales, expanded market reach, and integrated an automated real-time crop price tracking and ordering system.

MediTrack — *React, FastAPI, SQLite, Chart.js* - GitHub

Built a responsive healthcare platform featuring medication tracking and persistent reminders alongside an interactive data visualization dashboard utilizing Chart.js to track patient health metrics over time.

Healthcare Dashboard — *Python, Dash, Plotly, Pandas* - GitHub

Engineered an interactive analytics dashboard utilizing Pandas for data pipelining and preprocessing, rendering high-performance visual graphs via Plotly and Dash to deliver actionable patient insights.

Tic-Tac-Toe — *HTML, CSS, JavaScript* - Live — GitHub

Developed a fully responsive Tic-Tac-Toe web application featuring an interactive and intuitive user interface designed for seamless, cross-device performance.

Snake Game — *HTML, CSS, JavaScript* - Live — GitHub

Built a classic arcade Snake game using native web technologies, implementing smooth game-loop mechanics and responsive keyboard controls.

Awards and Achievements

- **BGI Hackathon 2026**
MediTrack - medication adherence system.
- **Odoo Hackathon 2025**
Skill Swap - peer-to-peer learning platform.
- **Cyber Shield Hackathon 2025**
AI-based fraud detection system.
- **Vibe Coding Hackathon 2025**
CodeToFlow - code to flowchart tool.
- **NCC 'A' Certificate**
Leadership, discipline, teamwork recognition.
